Anycubic Kobra 2 Max 3D Printer

LKR 250,800.00

Anycubic Authorised Reseller

- **6-Month Warranty included** for worry-free operation.
- **Lightning-Fast Speed**: Print at a remarkable 500 mm/s, saving you time on

Property of Master3D (PVT) LTD. Visit https://www.master3d.lk

every project.
- **Massive Build Volume**: Create large-scale models with a spacious 420 x 420 x 500 mm build area.
- **Auto-Levelling Precision**: Ensure flawless prints with the upgraded LeviQ 2.0 automatic leveling system.
- **Versatile Filament Compatibility**: Works with PLA, ABS, TPU, and PETG for all your creative needs.

Experience High-Speed Precision with Anycubic Kobra 2 Max

Step into the future of 3D printing with the **Anycubic Kobra 2 Max**. This beast of a printer offers blazing-fast speeds, exceptional build volume, and user-friendly features that will elevate your creative projects to new heights. With its state-of-the-art technology and advanced hardware, the Anycubic Kobra 2 Max ensures precision and efficiency like never before. Crafted with excellence by *Master3D*, this printer is your ultimate partner in innovation and creativity.

Key Features of Anycubic Kobra 2 Max

- **Printing Technology**: FDM (Fused Deposition Modeling)
- **Build Volume**: 420 x 420 x 500 mm (88L)
- **Typical Printing Speed**: 300 mm/s
- **Max. Printing Speed**: 500 mm/s
- **Layer Resolution**: 0.05 - 0.3 mm

With a massive build space of 420 x 420 x 500 mm, the **Anycubic Kobra 2 Max** lets you tackle even the largest projects with ease. Imagine printing intricate, detailed models faster than ever with a max speed of 500 mm/s. Plus, the upgraded LeviQ 2.0 automatic leveling system ensures your prints come out perfectly every time. The robust dual Z-axis motors and dual Y-axis design provide stability and precision, so you can focus on bringing your ideas to life. *Master3D* brings you this powerful tool to transform your 3D printing experience.

FAQs

1. **Q. What kind of filaments can I use with the Anycubic Kobra 2 Max?**
   A. You can use PLA, ABS, TPU, and PETG, giving you plenty of options for your projects.

2. **Q. How do I control the Anycubic Kobra 2 Max?**
   A. The printer features a 4.3-inch LCD touch screen for easy navigation and control.
3. **Q. Is the Anycubic Kobra 2 Max easy to set up?**
   A. Absolutely! Thanks to its modular design, you can assemble it quickly and start printing in no time.

Ready to take your 3D printing to the next level? The **Anycubic Kobra 2 Max** from *Master3D* is here to make your creative dreams a reality. With unmatched speed, precision, and ease of use, it's the perfect choice for both beginners and seasoned makers alike. Dive into the future of 3D printing today!

Specification	Details
Printing Technology	FDM (Fused Deposition Modeling)
Build Volume	420 x 420 x 500 mm (88L)
Typical Printing Speed	300 mm/s
Max. Printing Speed	500 mm/s
Layer Resolution	0.05 - 0.3 mm
Nozzle Diameter	0.4 mm (replaceable)
Nozzle Temperature	≤ 260°C
Filament Compatibility	PLA, ABS, TPU, PETG
Extruder Type	Direct Extruder + Double Gears
Bed Leveling	LeviQ 2.0 Automatic Leveling
Max. Acceleration	Not specified
Connectivity	USB, Wi-Fi
User Interface	4.3-inch LCD Touch Screen
Slicing Software	Anycubic App
Power Supply	Not specified
Frame Material	Metal
Weight	22 kg
Dimensions	740 x 735 x 640 mm (HWD)
