

# Anycubic Kobra 2 Plus 3D Printer

**LKR 189,778.80**

## **Anycubic Authorised Reseller**

- **6-Month Warranty included** for worry-free operation.
- **Blazing Fast Printing:** Max speed of 500mm/s with precision and speed.

- **Generous Build Volume:** Print large models up to 320 x 320 x 400 mm.
- **Advanced Levelling System:** New Anycubic LeviQ 2.0 for perfect prints every time.
- **Smart Connectivity:** Control and monitor your printer remotely with the Anycubic app.

## Discover the Power of 3D Printing with Anycubic Kobra 2 Plus

Elevate your 3D printing projects with the **Anycubic Kobra 2 Plus**! This cutting-edge printer is crafted to meet the needs of both novices and pros. Imagine transforming your dreams into reality with precision, speed, and ease. That's exactly what the **Anycubic Kobra 2 Plus** offers. At *Master3D*, we're thrilled to present this powerful machine that will take your creations to the next level.

## Experience High-Speed Printing and Exceptional Quality

The **Anycubic Kobra 2 Plus** boasts impressive features like a high-speed processor and advanced vibration compensation technology. With a remarkable print speed of up to 500mm/s and an acceleration of 10,000 mm/s<sup>2</sup>, the print head glides effortlessly through the expansive build volume of 320 x 320 x 400 mm. Combined with the direct drive extruder and sophisticated software, you get top-notch print quality every time.

- **Printing Technology:** Fused Deposition Modeling (FDM)
- **Build Volume:** 320 x 320 x 400 mm
- **Max. Printing Speed:** 500 mm/s
- **Layer Resolution:** 0.05-0.3 mm
- **Filament Compatibility:** PLA, ABS, PETG, TPU

## Why Anycubic Kobra 2 Plus is a Must-Have

Looking for a game-changing addition to your workshop? The **Anycubic Kobra 2 Plus** is designed with efficiency and ease in mind. Equipped with the new LeviQ 2.0 automatic leveling system and a robust dual-gear direct extruder, this printer ensures flawless prints every time. At *Master3D*, we stand behind tools that inspire creativity and innovation, and this 3D printer is no exception.

## FAQs

### 1. Q. How does the LeviQ 2.0 automatic levelling system work?

A. The LeviQ 2.0 system detects surface irregularities and compensates in real-time,

ensuring a perfect first layer without manual adjustments.

**2. Q. What makes the Anycubic Kobra 2 Plus different from other 3D printers?**

A. Its combination of speed, precision, and user-friendly features like the Anycubic app for remote control and updates make it a standout choice.

**3. Q. Can I use the Anycubic Kobra 2 Plus for large projects?**

A. Absolutely! With a build volume of 320 x 320 x 400 mm, you can easily print large models or multiple small parts simultaneously.

Ready to take your 3D printing to new heights? Get the **Anycubic Kobra 2 Plus** from *Master3D* and bring your creative visions to life!

<b>Feature</b>	<b>Details</b>
Printing Technology	Fused Deposition Modeling (FDM)
Build Volume	320 x 320 x 400 mm
Max. Printing Speed	500 mm/s
Typical Printing Speed	300 mm/s
Layer Resolution	0.05-0.3 mm
Filament Compatibility	PLA, ABS, PETG, TPU
Nozzle Diameter	ø 0.4 mm (replaceable)
Nozzle Temperature	≤ 260°C (500°F)
Hotbed Temperature	≤ 90°C (190°F)
Z-axis	Double Motor Double Z-axis
X/Y Axis	Double Metal Spindle
Cooling Fan RPM	7000 rpm/min
Bed Leveling	New Anycubic LeviQ 2.0 Automatic Leveling System (49-point)
Frame Material	Robust Metal Frame
User Interface	4.3" LCD Touch-Control Screen
Connectivity	USB Port x 3
Slicing Software	Compatible with Anycubic App (Upcoming features)
Power Supply	400W
Weight	14.5 kg
Machine Dimensions	630 x 605 x 564 mm (HWD)

**Disclaimer:** Dimensions and weight may vary. Images are for reference only.
