

# Anycubic Kobra 2 Pro 3D Printer

**LKR 113,640.00**

## **Anycubic Authorised Reseller**

- **6-Month Warranty included** for worry-free operation.
- **Lightning-Fast Printing:** Speeds up to 500 mm/s to get your projects done

Property of Master3D (PVT) LTD. Visit <https://www.master3d.lk>

quickly.

- **Generous Build Volume:** 250 x 220 x 220 mm, perfect for large prints.
- **Automatic Levelling:** LeviQ 2.0 ensures precise prints every time.
- **Dual Gear Direct Extruder:** For smooth and accurate material extrusion.
- **User-Friendly Touchscreen:** Easy-to-use 4.3" LCD touch-control screen.

## Revolutionize Your 3D Printing with the Anycubic Kobra 2 Pro

Ready to take your 3D printing experience to the next level? The **Anycubic Kobra 2 Pro** is packed with advanced features and delivers top-notch print quality, all while cutting down on print time. With a super-fast speed of up to 500 mm/s and a build volume of 250 x 220 x 220 mm, this printer is perfect for both beginners and pros alike. Plus, *Master3D* offers you the best quality and support for all your 3D printing needs.

### Unmatched Performance and Features

#### Key Features

- **Printing Technology:** FDM (Fused Deposition Modeling)
- **Build Volume:** 250 x 220 x 220 mm
- **Typical Printing Speed:** 300 mm/s
- **Max. Printing Speed:** 500 mm/s
- **Layer Resolution:** 0.1 mm

Equipped with an upgraded LeviQ 2.0 automatic leveling system, this printer ensures precision and ease of use. The dual-gear direct drive extruder and high-performance cooling system provide excellent material extrusion, resulting in smooth, high-quality prints. Thanks to *Master3D*, you'll always have the support you need to get the most out of your **Anycubic Kobra 2 Pro**.

#### Why the Anycubic Kobra 2 Pro?

With its 1.2 GHz Cortex-A7 dual-core processor, the **Anycubic Kobra 2 Pro** delivers lightning-fast calculation times, making it a powerhouse in 3D printing. The sturdy construction, featuring a double-guided Z-axis and a dual Y-axis with SG15 bearings, ensures stability and accuracy. And with smart features like vibration compensation and flow control, your prints will be flawless. Plus, the new Anycubic

app allows you to remotely control and monitor your printer via WiFi.

## FAQs

1. **Q. Can I use third-party filaments with the Anycubic Kobra 2 Pro?**

A. Yes, the printer is compatible with various third-party filaments, giving you flexibility in your projects.

2. **Q. How do I update the firmware on my Anycubic Kobra 2 Pro?**

A. You can easily update the firmware by downloading the latest version from Anycubic's official website and following the instructions provided.

3. **Q. What kind of maintenance does the Anycubic Kobra 2 Pro require?**

A. Regular maintenance includes cleaning the nozzle, checking the bed levelling, and ensuring the filament path is clear.

Unlock new possibilities with the **Anycubic Kobra 2 Pro** and let *Master3D* be your trusted partner in all your 3D printing endeavors!

| Specification                 | Details   |
|-------------------------------|---|
| <b>Printing Technology</b>    | FDM (Fused Deposition Modeling)                             |
| <b>Build Volume</b>           | 250 x 220 x 220 mm  |
| <b>Typical Printing Speed</b> | 300 mm/s  |
| <b>Max. Printing Speed</b>    | 500 mm/s  |
| <b>Layer Resolution</b>       | 0.1 mm  |
| <b>Nozzle Diameter</b>        | 0.4 mm (replaceable)  |
| <b>Nozzle Temperature</b>     | ≤260°C  |
| <b>Filament Compatibility</b> | PLA, ABS, PETG, TPU   |
| <b>Extruder Type</b>          | Direct Extruder + Double Gears                              |
| <b>Bed Leveling</b>           | New Anycubic LeviQ 2.0 Automatic Leveling System (25-point) |
| <b>Max. Acceleration</b>      | 20,000 mm/s <sup>2</sup>                                    |
| <b>Connectivity</b>           | USB Port x 3  |
| <b>User Interface</b>         | 4.3" LCD Touch-Control Screen                               |
| <b>Slicing Software</b>       | Included  |
| <b>Power Supply</b>           | 400W  |
| <b>Frame Material</b>         | Metal   |
| <b>Weight</b>                 | 9.5 kg  |
| <b>Machine Dimensions</b>     | 486 x 435 x 463 mm (HWD)                                    |
