

Anycubic Kobra 3 3D Printer

LKR 165,914.40

Anycubic Authorised Reseller

- **6-Month Warranty included** for worry-free operation.
- **Ultra-Fast Printing** - Reach speeds up to **600 mm/s** with high-precision

motion control.

- **Multicolor Printing** – Optional **Anycubic Color Engine Pro (ACE Pro)** supports up to **4 colors**.
- **Auto Bed Leveling** – **LeviQ 3.0** ensures perfect first-layer adhesion every time.
- **High-Temperature Printing** – Nozzle heats up to **300°C**, compatible with **PLA, PETG, TPU, and ABS**.**Disclaimer:**

Anycubic Kobra 3: Unleash Your Creativity with High-Speed, Multicolor 3D Printing

Imagine bringing your ideas to life with vibrant colors and exceptional detail—all at lightning speed. The Anycubic Kobra 3 is here to make that a reality. Designed for both hobbyists and professionals, this 3D printer offers a blend of speed, precision, and versatility that's hard to beat.

High-Speed Printing Meets Multicolor Magic

Gone are the days of waiting hours for a single print. With the Anycubic Kobra 3, you can achieve speeds up to 600mm/s, thanks to its advanced motion system and vibration compensation technology. Plus, the optional Anycubic Color Engine Pro (ACE Pro) lets you print in up to four colors simultaneously, adding a new dimension to your projects. At *Master3D*, we believe this combination of speed and multi-colour capability sets the Kobra 3 apart from the competition.

User-Friendly Features for Seamless Printing

Setting up and operating the Kobra 3 is a breeze. The automatic bed leveling system ensures your first layer is always spot-on, while the 4.3-inch touchscreen interface makes navigation intuitive. The printer also supports a variety of filaments, including PLA, PETG, and TPU, giving you the flexibility to choose the best material for your project. Plus, with connectivity options like USB and Wi-Fi, you can easily manage your prints from multiple devices.

Key Specifications:

- **Printing Technology:** Fused Deposition Modeling (FDM)
- **Build Volume:** 250 x 250 x 260 mm

- **Maximum Printing Speed:** 600 mm/s
- **Nozzle Temperature:** Up to 300°C
- **Filament Compatibility:** PLA, PETG, TPU

FAQs

- **Q. Can the Anycubic Kobra 3 print with flexible materials like TPU?**
A. Yes, the Kobra 3 supports TPU filament, allowing you to print flexible and durable parts with ease.
- **Q. Is the Anycubic Color Engine Pro (ACE Pro) included with the Kobra 3?**
A. The ACE Pro is an optional add-on that enables multicolor printing. You can purchase it separately to enhance your Kobra 3's capabilities.
- **Q. What slicing software is compatible with the Anycubic Kobra 3?**
A. The Kobra 3 is compatible with Anycubic's proprietary slicer, as well as popular third-party software like Cura and PrusaSlicer, giving you flexibility in your workflow.

At *Master3D*, we're excited to offer the Anycubic Kobra 3, a printer that combines speed, versatility, and user-friendly features to help you bring your creative visions to life.

Feature	Specification
Printing Technology	Fused Deposition Modeling (FDM)
Build Volume	250 x 250 x 260 mm
Layer Resolution	0.05 - 0.3 mm
Nozzle Diameter	0.4 mm (Standard)
Max Nozzle Temperature	Up to 300°C
Printing Speed	Typical: 300 mm/s, Max: 600 mm/s
Extruder Type	Direct Drive
Filament Compatibility	PLA, ABS, PETG, TPU
Bed Leveling	Automatic (LeviQ 3.0)
Heated Bed Temperature	Up to 110°C
Max Acceleration	20,000 mm/s ²
Connectivity	USB, Wi-Fi, LAN
User Interface	4.3-inch Color Touchscreen
Slicing Software	Anycubic Slicer, Cura, PrusaSlicer
Power Supply	350W

Feature	Specification
Frame Material	Metal
Weight	12 kg
Special Features	Supports Anycubic Color Engine Pro (ACE Pro) for multicolor printing
